

## MilkyLab

Established in 1980 as a producer of machines for the dairy industry, MilkyLAB is among the market leaders in the design and manufacture of machines and automatic installations. From its location inside a major Italian dairy district, the company serves both the domestic and international markets under its own MilkyLAB trademark.

MilkyLab specializes in machines for the production of: Pasta Filata Cheese (Mozzarella, Caciocavallo, Provolone, Pizza Cheese, Kassery, String cheese) Processed Cheese And Cheese Spreads, Hard And Semi-Hard Cheese (caciotte, pecorino, ecc.). ♦

## FENCO

The company established in Italy in 1984. FENCO started its extraordinary journey on 1984 due to the intuition and due diligence work of a pool of engineers who decided to establish in Parma a Food Engineering Company with the aim to be the first to innovate tomato processing. Always focusing on the fruit processing in all its meanings, FENCO has then constantly expanded its technical and product portfolio with innovative solutions and patented systems, providing a superior technology and service to the world's largest food and drink processors.

FENCO offers an unmatched technical knowledge giving to FENCO the ability to respond to the highest demands of the worldwide food and drink Industry. ♦

## Tomra Sorting Solutions

With more than 110 years of combined sorting and industry experience, and over 13,740 units installed in more than 80 countries, the expertise allows the company to deliver high-performance sorting and analytical solutions to the customers.
