

Editor's Note

Dear readers,

In March - April 2019 edition, we bring to our readers exclusive report on halal meat. Halal food is often used in reference to foods and drinks, which are permissible for Muslims to eat or drink under Islamic teachings. Halal market was US\$ 3.6 trillion, but Pakistan's share in it was less than 1%. Over 90% share of the Halal market was captured by the non-Muslim countries while the top ten exporters of Halal products in the Middle East were also non-Muslims.

Gulfood 2019, the 24th edition of the world's largest annual food and beverage trade show, has once again reinforced its reputation as the tailor-made trading platform for F&B specialists from around the world to display their latest innovations with thousands of global reveals and new-to-market launches rolled out across the 1,000,000 sq. ft exhibition at Dubai World Trade Centre (DWTC) from 17th to 21st February 2019.

Over 78,000 top-class trade visitors from 135 countries – 3,200 exhibitors from 90 countries provided a complete overview of the market in the fresh fruit sector. FRUIT LOGISTICA 2019 saw an increased number of exhibitors and trade visitors, more innovation and stronger internationalization, and thereby underpinned its status as a leading global business platform for the fruit trade.
